

How to Make A Scarecrow

- 1 Select the items that your Scarecrow will be wearing.
- 2 Dress the cross pieces: Bag over the head, sleeves over the arms, and one leg into the “stalk”.
- 3 Take a tuft of hay in one hand, and wrap it loosely around your hand to form a ball, then tuck it into the sleeve or leg of the scarecrow.
- 4 Use larger tufts for the head and torso. Torso is the last to be done.
- 5 Close all buttons and secure at the waist with pins.
- 6 Add all accessories, and ensure they are securely attached to the Scarecrow.
- 7 Remember to take your time and have fun!!
